How to Apply to Technical Communication Scholarships through the Eagle Scholarship Portal

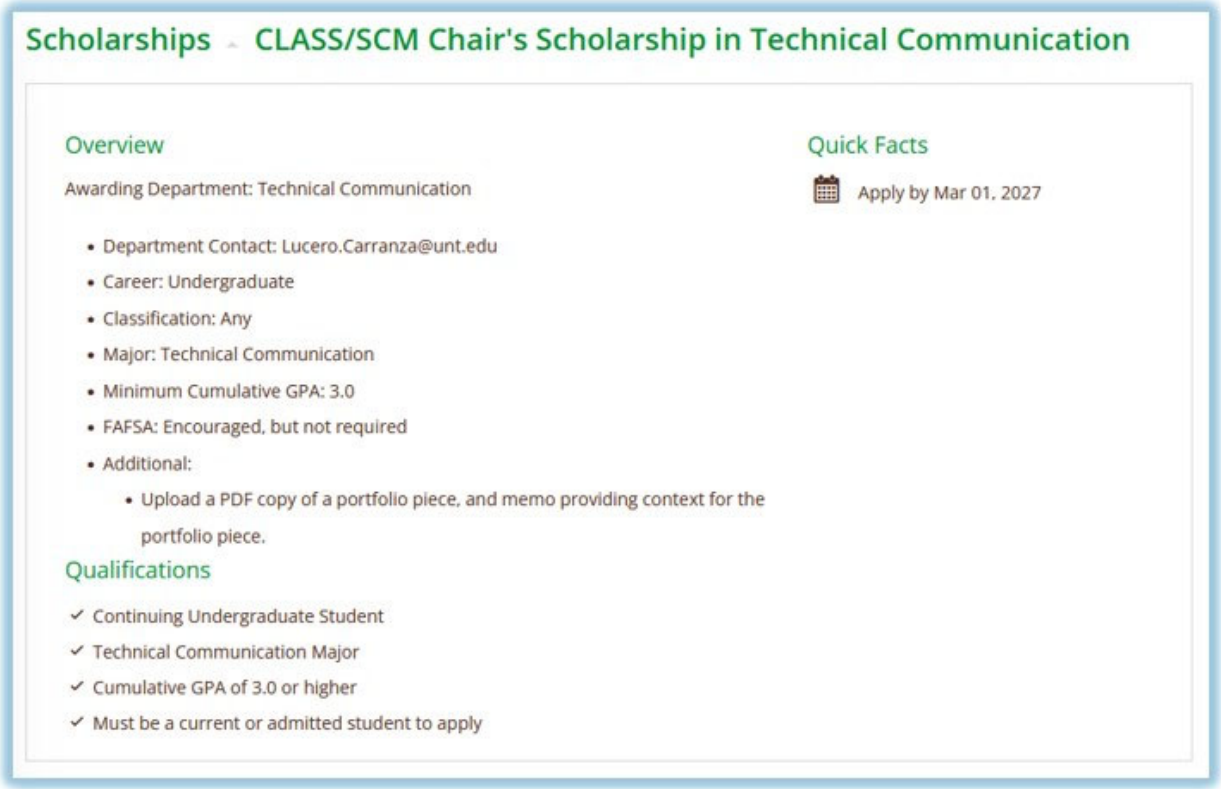

Getting Started with Scholarships: scholarships.unt.edu

Direct Link to Eagle Scholarship Portal: unt-scholarships.awardspring.com

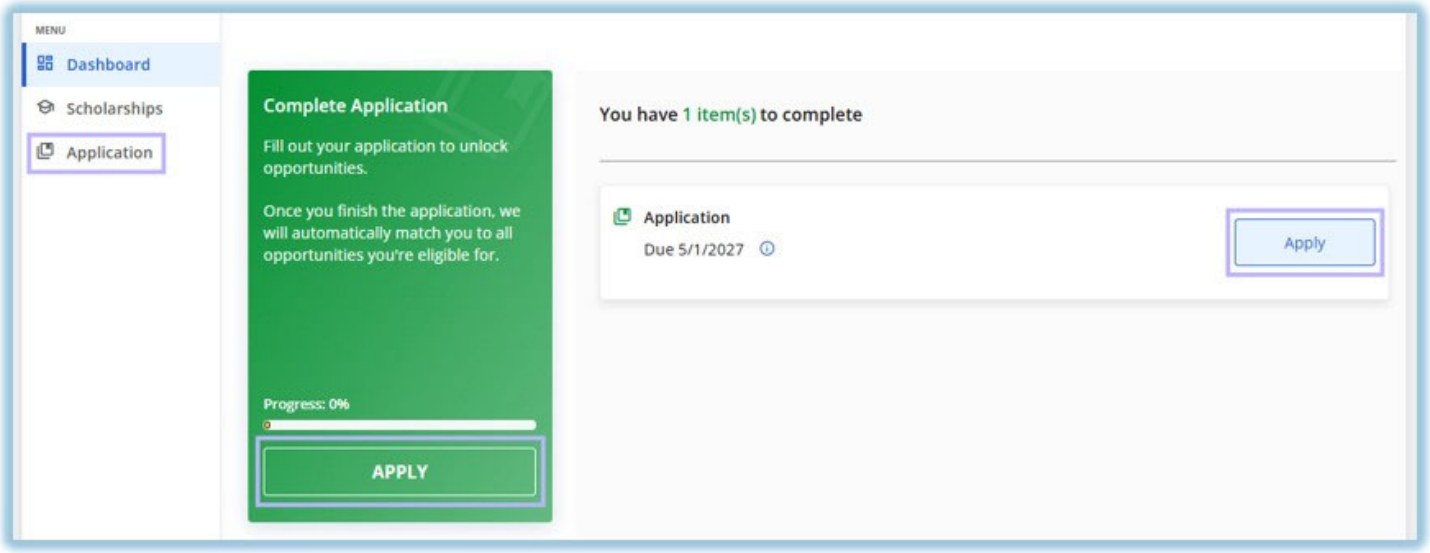

The **Scholarships** tab on the landing page will show the list of scholarships active for the current award cycle. Sign in is not required to search this list.

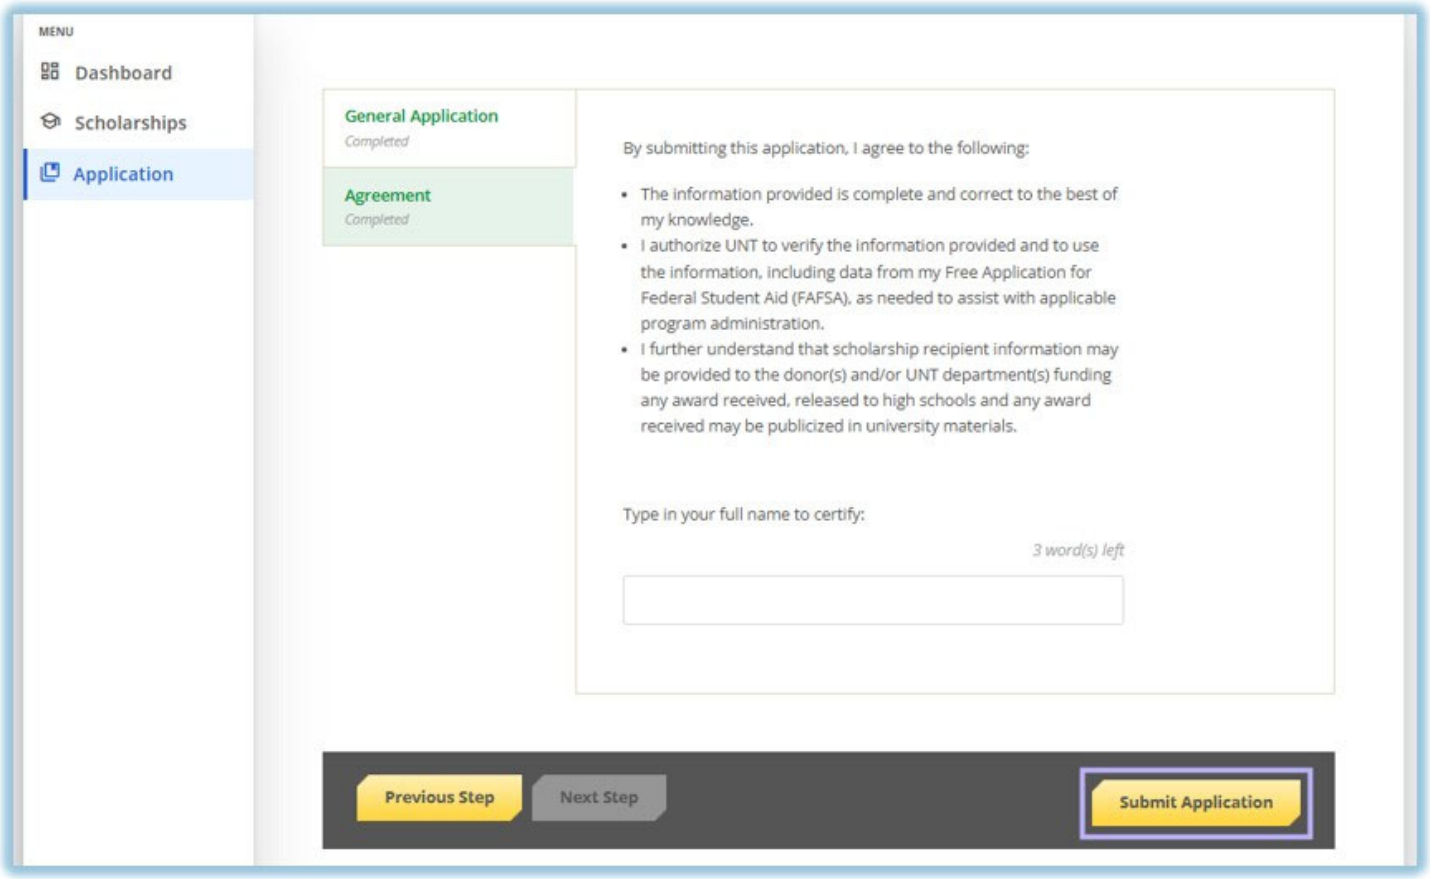

Click on any scholarship here to review the public scholarship details.

Once a student has signed in with their EUID and password, they can begin their application by clicking on the **Application** tab, the green **APPLY** button or the blue **Apply** button.

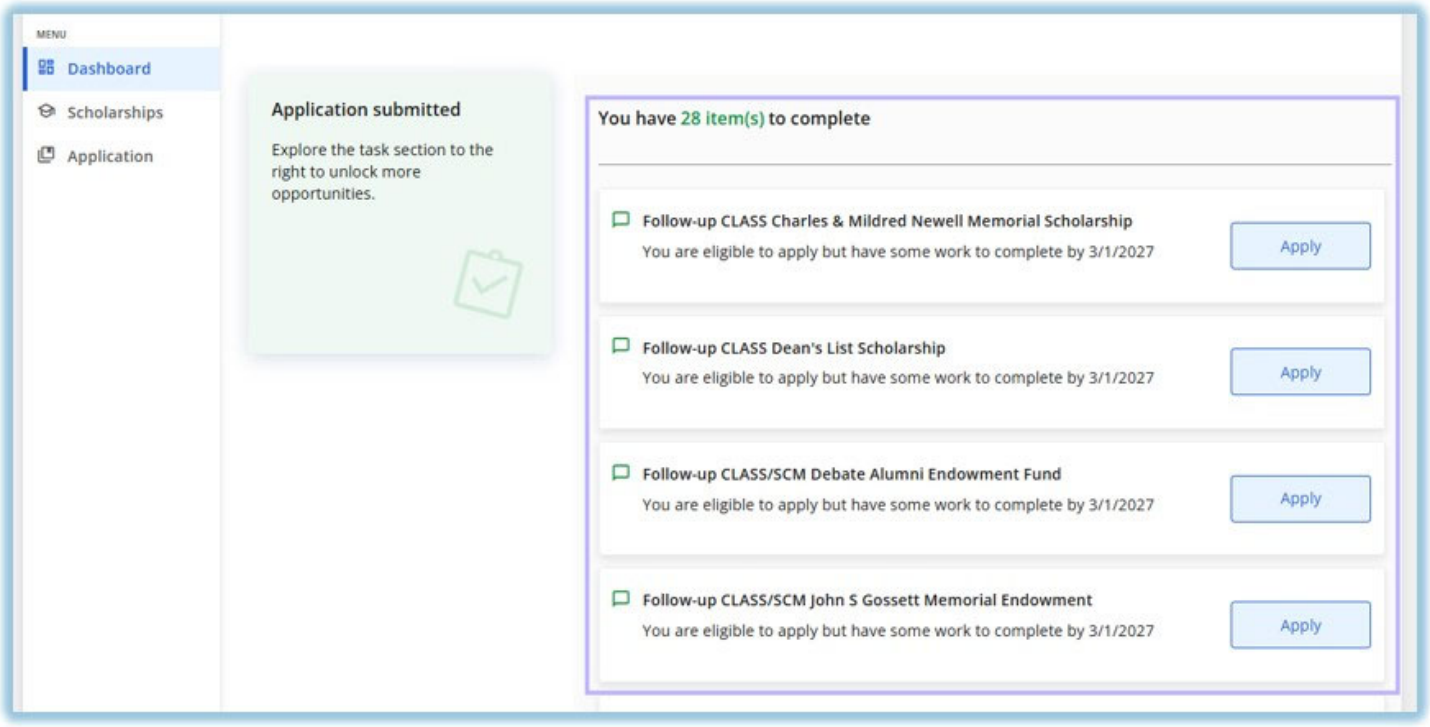

Students must complete the **General Application** and **Agreement,** then click the **Submit Application** button.

Students will automatically be matched to the scholarships they meet the qualifications for. Student data will be imported from EIS into the application site nightly, so the most current data will be used to match students to scholarships.

Students may be eligible for scholarships that require *additional* information (i.e. scholarship-specific questions, essays, letters of recommendation, etc.). These scholarships will be listed on the **Dashboard** tab. We encourage students to review each follow-up item, determine if they meet the additional requirements, and then submit the information required to be considered for that scholarship.

By clicking on the blue **Apply** button, students can review the scholarship details and submit their application for that scholarship. Once all required responses have been entered, the **Submit Application** button will light up, allowing students to submit their application for that scholarship.

Scholarships - CLASS/SCM Debate Alumni Endowment Fund
